Quality where it counts

RECORD PROTECTION CABINET....

...extensive document protection

Are you using a standard steel cabinet to store your documentation? If you are then its time for a change. If you experience a fire, all the stored documentation is likely to be lost because of the heat being transmitted through the cabinet. The impact of this can be disastrous. What you need is a 'Record Protection Cabinet', designed to protect vital documents from fire and theft. Available in five sizes, the Record Protection Cabinet is a vastly popular product offering a wide range of design features. All in all, the Record Protection Cabinet is another fine example of Chubb safes implementing quality and reliability within its products.....

KEY FEATURES

- Extensive document protection using highly reliable materials.
- Fire resistance of up to **120 minutes**, tested to NT Fire 017 standard for paper protection.
- Manufactured to an ISO9002 accredited quality assured process.
- The cabinet can be **customised** with a wide range of fittings including shelves, pullout platform, pullout file frames and a lockable cupboard to meet every customer's requirements.

QUALITY FEATURES

TESTING

Each cabinet has gained the NT Fire 017 standard fire test label which gives **120 minutes** of fire protection for documents.

QUALITY MANUFACTURE

Manufactured to an ISO9002 accredited quality assured process.

LOCKING

The cabinet is secured by a high security, double bitted keylock as standard. Other locking options are available upon request.

Slam shut action provides peace of mind that the cabinet is sealed when closed.

BODY

Constructed from fire resisting barrier materials encapsulated in an outer and inner steel body for greater protection against attack.

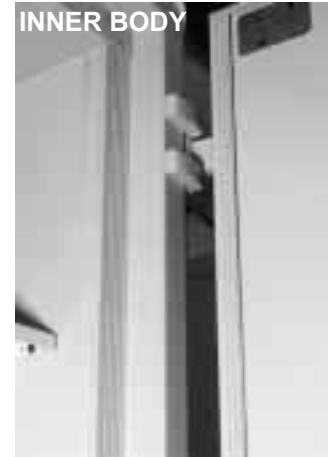

BARRIER

The space between the inner and outer body is filled with Chubb's own fire resisting material, giving a total barrier thickness of 90mm.

DOOR

The door is constructed in a similar manner to cabinet body ensuring uniform protection against the effects of fire.

INNER BODY

DOOR

DESIGN FEATURES

SIZE

The Record Protection Cabinet is available in five sizes.

FINISH

The cabinet is finished in a light grey, Chubb RAL 9002 colour. Escutcheon and handle are finished in black.

CAPACITY

A wide range of volume sizes allows generous storage of personal records, sales ledgers, contracts and other vital documentation.

CUSTOMISATION

The cabinet can be **customised** with a wide range of fittings including shelves, pullout platform, pullout file frames and a lockable cupboard to meet every customer's requirements.

DESIGN

Attractive design with Chubb Safes handle for comfortable and smooth operation
