

Secure Counter Safe

for secure storage of banknotes under counters

Ever faced the problem excess of banknotes at the till point? If you have, then the Secure Counter Safe is a much needed solution.

Tailored for retail environments, the unit is designed to store and protect banknotes. For this application, the Secure Counter Safe has become an invaluable purchase for those in the retail trade.

Models

The Secure Counter Safe is available in one size.

Construction

The units are made from solid steel sheet, secured by a special locking mechanism, providing storage for up to 350 banknotes. The unit is fixed by four screws underneath the counter. Emptying can be done easily when unlocking the storage unit.

Locking

The Secure Counter Safe is equipped with two cylinder key locks. First lock is to secure the note storage unit and the second lock is to secure the unit to the counter. In this way, the storage unit can be removed separately for emptying.

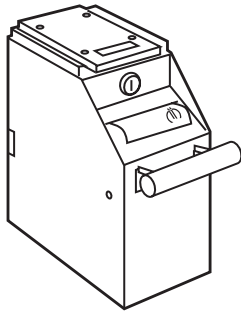

Design

The Secure Counter Safe will complement your business environment with its neutral colour and functional design. It is supplied in light grey powder coated finish.
