EUROSAFES

Underfloor safes

Euro Sapphire - Grade 1

Round Door 6 $\frac{1}{4}$ " Diameter

The Euro Sapphire Grade 1 door is manufactured from stainless steel, giving higher resistance from both mechanical and thermal methods of attack, offering the customer a non-oxidising door.

The same body will take both £10,000 and £17,500 cash cover doors.

This safe is also certified for a surface mounted installation.

Euro Ruby - Grade 2

Round Door 6 $\frac{1}{4}$ " Diameter

The Euro Ruby Grade 2 is the answer to most commercial, industrial and financial physical security problems. This high level safe demonstrates British engineering at its best. Supplied with one of the best Euro Class B locks available, the Solid Stainless Steel Door combines anti-drill and anti-thermal barriers, together with special relocking mechanisms which will lock the safe in the case of an attack.

Euro Emerald - Grade 3

The **Only** Grade 3 Underfloor Safe available in the World!

Round Door 6 $\frac{1}{8}$ " Diameter

EUROSAFES

The Euro Emerald Grade 3 draws upon Churchills 30 year history in the safe making business, providing the **ULTIMATE** protection for your cash and valuables. Designed and engineered utilising a Class B High Security lock or alternatively a 4 wheel combination lock, comprising of the highest drill protection in the stainless steel door structure, incorporating copper plating and ball bearings, making the Euro Emerald the most secure underfloor safe available today, offering the best protection that money can buy.

Churchill Olympic - Gold Grade 2 Square Door 7 1/4" x 9" Diameter

The Euro Gold with its remarkable design features and high cash limit make this safe a very cost effective answer to most physical security problems. Embodying all the features of the Bronze and Silver range, with a stainless steel door, the Gold is further strengthened by the additional thickness of special steel and increased protection to resist against high intensity thermal cutting equipment.
